

## **OUR COMPANY QUALITY OBJECTIVE**

*The Company objective is to constantly enhance the reliability of its products and to keep a close and responsive contact with its customers while maintaining cost competitiveness and quality on the market. The Company's investment policy is ongoing in order to offer high value added and new generation products and ensure a better service to its customers which includes leading local and International brands such as Coca-Cola.*

## **QUALITY POLICY AND FOOD SAFETY POLICY**

*Our quality policy is to manufacture and supply various types of plastic products to the industrial and domestic market segment in accordance to their needs and expectations.*

*Our investment policy in sophisticated machines and personalised moulds enable us offering more added value products.*

*Being HACCP certified based on CODEX, we have reinforced GMP & GHP practices so as to demonstrate our commitment to supply our customers with packaging materials suitable for food packaging.*

*As an ISO 9001 certified company since 2002, we continually upgrade our activities through review of Quality Management System by analysing risk and opportunities and setting quality objectives for continual improvement while laying emphasis on 3R (Recycle, Reuse, Reduce).*

*We ensure compliance with the legal regulations applicable for our industry sector as well as any other requirements specified by our customers.*

*Our employees represent a major asset in our organization. Through their contribution and team work, we are confident that their output will continue to enhance customer's satisfaction.*

*We are proud of being aware of environmental issues by using food grade raw material and recyclable plastic so as to promote circular economy. We conduct our business professionally in an ethical manner in line with the expectations of our stakeholders.*
